

Memory Page & Sentence Building

Objective: The child will first practice producing the target sound. Later, the child will use the words to build sentences.

Instructions: Ask your child to study the next page for 30 seconds. Remove the page and ask the child to say the objects he or she can recall. Listen to how the target word is produced and provide appropriate help! After playing the game several times, ask your child to provide more details about one object. This simple activity leads to spontaneous speech.
