

Cassville High School

Extracurricular Activities Handbook

2024-2025

PURPOSE AND OBJECTIVES

PURPOSE: The purpose of the extracurricular program is to provide experience that enables the pupil to progress toward established educational objectives. Outlined below are some of the desirable educational goals to be achieved through the competitive programs.

A. TO DEVELOP FOR THE PUPIL:

1. Qualities of mental and physical strength, endurance, vitality, and neuromuscular skills.
2. A program of activities that meets the needs, interests, and capacities of the pupil.
3. Qualities of alertness, courage, resourcefulness, and good sportsmanship.
4. Proper emotional control and stability of character.
5. Desirable social patterns of individual and group conduct.

B. TO DEVELOP FOR THE SCHOOL:

1. A program of extracurricular activities as an integral part of the school curriculum.
2. A high standard of school loyalty, pupil morale, and wholesome school spirit.
3. Pupil understanding of extracurricular activities so that they will be more intelligent and appreciative as spectators.

C. TO DEVELOP FOR THE COMMUNITY:

1. An understanding that the extracurricular activities for pupils has been promoted under conditions which insure to the participant and to the public, the best traditions in sportsmanship, citizenship, and a wholesome school community relationship.

OUR OVER-RIDING GOAL IS PRIDE, CHARACTER, AND CITIZENSHIP THROUGH PARTICIPATION.

OBJECTIVES: Participation in extracurricular activities means much more than two teams trying to win a contest. Extracurricular activities give the student tremendous opportunities to develop as a “complete” human being. Here at Cassville we have specific objectives for our activity program, and we as sponsors dedicate ourselves to reaching these objectives. By the time a young participant graduates from Cassville High School we want him/her to be able:

1. To work cooperatively with others.
2. To learn from constructive criticism.
3. To have self-confidence in stressful situations.
4. To discipline himself/herself.
5. To feel proud of the great Cassville tradition.
6. To lead others.
7. To teach certain skills to younger participants
8. To respect teamwork, organization, and unity.
9. To appreciate the help that parents, teachers, coaches, and administrators have given them.
10. To represent Cassville High School in a positive way.
11. To evaluate his/her abilities realistically.
12. To have a positive learning attitude toward all tasks.
13. To value hard work and what hard work accomplishes.
14. To seek help from others when a problem arises.
15. To develop lasting relationships with others.
16. To praise others who do a good job even though they may be opponents.
17. To be physically fit and healthy.
18. To respect the rules and the officials who enforce the rules.
19. To feel good about himself/herself as a person.
20. To be dependable when given a job to do.

ADVANTANGES OF PARTICIPATION Opportunity to participate in an activity that parallels many later life experiences.

1. Opportunity to develop physical, mental and social powers to the fullest.
2. Develop responsiveness to group discipline.
3. Develop self-confidence.
4. Develop respect for rules and duly constituted authority.
5. Opportunities for development of cooperation, resourcefulness, perseverance, sportsmanship, gameness, initiative, and unselfishness.
6. Travel opportunities enable you to see other communities and get acquainted with other types of people.
7. Develop lasting relationships.
8. Competition experiences tend to make one more friendly, interesting and human.
9. Increase your circle of friends and acquaintances.
10. Draws attention to you, which may have a “business” value later on.
11. Successful participation may open the door to future vocational opportunities.
12. Abilities gained through participation have helped many students through college.

DISADVANTAGES OF PARTICIPATION

1. You may practice and never make the “team”
2. Participation rules may cramp your “social style”
3. You will have to stay after school night after night for four or five months a year.
4. Less study time available, yet you must pass your subjects to be eligible.
5. Hard, tiresome, and sometimes monotonous repetition of certain activities.
6. Possibility of physical injury in athletics.

REQUIREMENTS FOR ACTIVITY PARTICIPATION

Students who represent Cassville High School in extracurricular activities are expected to be good citizens. Participation in extracurricular student activities is a privilege and not a right. In order to maintain the highest possible standards for participants in the Cassville High School system, the following minimum requirements are established for all students participating in the activity program. More restrictive standards may be required by each individual sponsor/coach. These citizenship standards apply to students three hundred and sixty-five (365) days a year and twenty-four (24) hours a day, regardless of whether a student is on campus or off campus.

A brochure entitled “*How to Protect and Maintain your High School Eligibility*” from the Missouri State High School Activities Association (MSHSAA) is provided for your review. This brochure provides useful information concerning common situations that cause students to lose eligibility both during the school year and during the summer months. Please take time to read this document.

DOCUMENTATION NEEDED PRIOR TO PARTICIPATION IN ACTIVITIES

Prior to participating in any activity, or practice leading up to an activity, students must have the following documentation on file in the principal’s office:

1. Physician’s Physical form including student’s verification of health insurance (completed after February 1 of the previous school year) * *This applies only to students participating in athletics.*
2. *Extracurricular Activity Random Drug Testing Consent Form, Parental Permission and Authorization for Treatment and Agreement with Handbook Policies signed. (Included)*

Students are required to have this consent form turned in to the office prior to their first contest or the end of August 2021, whichever comes first.

ACTIVITIES GOVERNED BY THIS ACTIVITY HANDBOOK

All MSHSAA governed activities including: All sports, cheerleading, band, vocal music, speech/debate, and the academic team. Non-MSHSAA activities involved in competition including: BETA, FFA, FBLA, FCCLA, TSA, Student Council and the Art Club.

GRADE REQUIREMENTS FOR COMPETITION PARTICIPANTS

1. The student shall have earned, the preceding semester of attendance, a minimum of 3.0 units of credit or have earned credit in 80% of the maximum allowable classes, whichever is greater. Based on our seven-period day (0.5 credit each), a student must pass 6 of 7 classes.
2. An additional stipulation for students attending Cassville High School requires that participation in competition is only allowed for students earning a C- average. This composite score calculates into a 1.67 on a 4.00 scale and is a requirement of the preceding semester.
3. Students are now allowed by the MSHSAA to count up to one credit from summer school towards meeting the 2.5 units needed for eligibility. Only classes needed for local graduation may be counted (Elective courses or correspondence courses do not count). Students at Cassville High School are only allowed to take classes during summer school that they have previously failed. Students who successfully complete these courses during summer school will earn a passing grade equal to a “D” for grade point purposes.
4. Cassville High School has established a grade point average of 2.67 on a 4.00 scale as the standard for those students wishing to participate in the dual sports program.

ATTENDANCE REQUIREMENTS FOR PARTICIPATION

1. Participants are required to attend school the day of a contest, unless prior arrangements have been made with the principal.
2. A practice or game should not be missed unless previously excused by the sponsor or coach of the particular activity.

TRAVEL POLICY

1. On trips, participants directly represent the community, school, and coaches/sponsors. Therefore, it is expected that all concerned will dress in an acceptable manner when traveling and conduct themselves in a manner that will not bring discredit to Cassville High School and the community.
2. All participants are expected to travel to contests with their group and sponsor. If unusual circumstances arise in which a student cannot ride to a contest with their group, prior approval must be sought from the principal/athletic director. Coaches/sponsors may permit students to travel home from contests with parents. (These situations require that parents sign their child out after contests or send a note for prior approval from the athletic director/principal to allow their child to ride home with other parents). **Under no circumstances will students be allowed to ride home from activities with other students.**

Failure to follow these expectations will result in suspension of further travel privileges (the degree of suspension will depend on the severity of the offense and will be determined by the sponsor/coach and the building principal).

STUDENTS PARTICIPATING IN TWO ACTIVITIES DURING THE SAME SEASON

Students are allowed to participate in two extra-curricular sports activities during the same season. Students wishing to participate in two sports during the same season will need to obtain a consent form from the athletic director and follow the guidelines set down by the athletic department involving dual sport participation.

1. Students are not allowed to participate in "open gyms", as well as their non-school competition in another sport, on the same day they are participating in a school-sponsored extra-curricular sports activity without permission from the head coach of the sport in which they are currently participating and the building principal.
2. Students may participate in activities such as band, vocal music, speech/debate, FFA, FBLA, etc. during their sports seasons. From time to time, conflicts may arise where events are scheduled for both activities during the same time. Students are asked to look ahead at potential conflicts in schedules and let their sponsors/coaches know of these situations as early as possible.

GUIDELINES FOR DUAL-SPORT PARTICIPATION

Philosophy- The Cassville R-IV School District believes in the greatest possible environment for individual growth. This includes the area of extra-curricular activities as well and it is proposed that students have the opportunity to participate in more than one sport in a given season.

Sports Offered Throughout the School Year

Girls

Softball (Fall)
 Volleyball (Fall)
 Basketball (Winter)
 Track (Spring)
 Cross Country (Fall)
 Soccer (Spring)
 Golf (Fall)
 Wrestling (Winter)
 Cheerleading (All Year)

Boys

Football (Fall)
 Soccer (Fall)
 Basketball (Winter)
 Track (Spring)
 Cross Country (Fall)
 Baseball (Spring)
 Golf (Spring)
 Wrestling (Winter)
 Cheerleading (All Year)

Rules of Dual-Sport Participation

1. **A student who wishes to participate in two sports during the same season must designate a priority sport before the beginning of the first appointed date of practice set by MSHSAA for the season of participation.**
2. Once a priority sport is set it cannot be changed at any point during the season.
3. A priority sport is defined as the sport which takes precedence over another sport in the event there is a conflict of schedule or any other matter that could lead to a conflict. The student must adhere to the priority sport in the event of any and all conflicts of schedule.
4. The student must practice in both sports but the amount of practice time must meet the agreed requirements of the head coaches of those sports involved.
5. The grade point average must be a 2.67 on a 4.00 scale. This higher G.P.A. is to ensure that those students participating in the dual-sport program maintain the utmost academic integrity, which is the priority.
6. **The student and parents or legal guardians, must sign a contract of dual-sport participation before the first practice session he or she attends.**
7. In the event that a student is disciplined for any infraction in a specific sport, the consequence will also be applied to the second sport in the season of dual participation. For Example-Student A is suspended ½ of a season for drug use. That suspension is to be served for both the priority sport and non-priority sport.
8. The High School Athletic Director and the High School Principal will serve in the capacity of advisors and final judgments on matter concerning dual-sport participation.

9. If an athlete quits a priority sport before the end of the season, then that athlete will not be allowed to participate in either sport during that same season.

RULES PERTAINING TO STUDENTS WHO QUIT ACTIVITIES

Participants will not be allowed to quit one activity to join another activity within the same season after 3 days of practice without approval from both coaches/sponsors. Also, students will not be allowed to quit an activity of one season to begin an activity of the next season until the first season is complete without both coaches/sponsors' approval.

GENERAL CITIZENSHIP STANDARDS FOR ACTIVITY PARTICIPATION

Student violations of the school district's citizenship standards include:

1. Repeated referrals for disciplinary action to the assistant principal/principal.
2. A single breach of the school district's discipline policies that the administration considers to be serious.
3. A violation of federal, state, or local criminal law that results in a summons being issued to the student, or charges being filed in court against the student proved to the satisfaction of the administration (Minor traffic violations are not included).
4. Failure to follow the sportsmanship expectations established by the school, the Big 8 Conference and the MSHSAA, which include but are not limited to the following:
 - Show respect toward their opponents, the opponent's coaches and administrators.
 - Show respect for your coaches/sponsors and officials. Never argue or make gestures indicating dislike for a decision.
 - Maintain self-control at all times, accepting decisions and abiding by them.
 - Accept both victory and defeat with pride and compassion, never being boastful or bitter.
 - Congratulate the opponents in a sincere manner following either victory or defeat.
 - Accept the responsibility and privilege of representing the school and community in a positive manner.
5. Possession, use, sale or transfer of alcoholic beverages, controlled substances or drugs, as defined in the student discipline policy and board policy, at any time or location, proved to the satisfaction of the administration.
6. Possession, use, sale or transfer of tobacco products on school district grounds, or during any school-related activity/event, proved to the satisfaction of the administration.
7. School uniforms and equipment are not to be worn other than during practice or during games. Participants are responsible for equipment that is lost or damaged. All equipment that is not returned, such as jerseys and practice gear, must be paid for by the participant.
8. Any participant serving OSS is not eligible to practice or participate in activities during the length of the suspension. Any student assigned to ISS is not eligible to participate in competitions or performances for the same number of days as the assignment beginning the day ISS is assigned.

Consequences:

The penalty for these general citizenship standards may vary according to the seriousness of each offense. Penalties may range from reprimands from the sponsor/coach to permanent suspension from further participation in extracurricular activities. The sponsor/coach will confer with the building principal to determine the amount and type of penalty assessed.

In keeping with our philosophy of encouraging honesty and proper values, students who are arrested or charged with violations of criminal law must inform the coach, athletic director, or the building principal within seven days of being arrested or charged with the criminal act. Failure to do so will result in suspension for an entire activity season.

Suspensions for students in the 10th-12th grades will only be applied to activities the student has previously participated in at the HS level. (For example: Students would not be able to serve a suspension in a sport/activity they had not previously participated in to avoid being suspended from another sport/activity). Ninth grade students would serve their suspensions in the next sport that they participate in at the HS level.

BIG 8 CONFERENCE GUIDELINES

Interscholastic activities shall supplement the curricular program of the school and shall provide the most worthwhile experiences possible. These experiences shall result in learning outcomes that contribute to the development of the attributes necessary for good citizenship. To this end only can interscholastic activities be justified.

Respect for Opponents

The opponent should be treated as a guest, greeted cordially upon arriving, given the best possible accommodations, and accorded with tolerance, honesty, and generosity.

Respect of Officials

Officials should be recognized as impartial arbitrators who are trained to do their job and who can be expected to do it to the best of their ability.

Knowledge and Understanding of the Rules

Familiarity with the “current” rules of the game and the recognition of their necessity for a fair contest are essential.

Self-Control

Good sportsmanship requires one to understand his/her own bias or prejudice and the ability to prevent the desire to win from overcoming rational behavior.

Appreciation of Skill in Performance

Applause for an opponent’s good performance is a demonstration of generosity and goodwill that should not be looked upon as treason.

Responsibility of Students and Parents

Students and parents’ frequent role as spectators and their enthusiasm for sports indicate a vital responsibility for good sportsmanship. Their habits and reactions determine the quality of sportsmanship, which reflects upon our school.

Students and parents are expected to:

- Know and demonstrate the fundamentals of sportsmanship
- Respect, cooperate, and respond to cheerleaders.
- Respect school property and authority.
- Show respect for injured players.
- Respect the judgment and strategy of the coach.
- Respect the judgment of game officials.
- Avoid profane language and obnoxious behavior.
- Not applaud errors or penalties of opponents.
- Not heckle, jeer, or distract opponents. This includes distracting behavior during the shooting of free throws by opposing players.
- Not criticize players, coaches, or officials for a loss.
- Not stomp on bleachers. (Also forbidden by MSHSAA rules.)
- Not throw objects onto the playing area or in the bleachers.
- Not use noisemakers of any kind.
- Not use cheers that taunt or ridicule the opponent, their cheerleaders, or spectators.
- Not boo or show overt displeasure with game activities or game officials.

SPECIFIC CITIZENSHIP STANDARDS FOR ACTIVITY PARTICIPATION

Use and Possession of Tobacco/E-Cigarettes/Vaping Devices

Students participating in extra-curricular activities are expected to refrain from the use and/or possession of tobacco, E-Cigarettes, or vaping devices regardless of whether the student has reached the legal age (18) to purchase such products.

Students are reminded that these standards apply to on-campus incidents, as well as those that occur at any school-related activity/event.

Consequences:

First Offense-On a student’s first violation, he/she shall be suspended for the next activity/game. (For example: If a student is involved in two activities at the same time (football and band), the student will be suspended from whichever activity occurs first).

Second Offense-On a student’s second violation, he/she shall be suspended for remainder of the activity season. Students involved in two or more activities will be suspended from each activity.

Third Offense-On a student’s third violation, he/she shall be suspended from all activities for the remainder of the school year.

Violations involving the use and/or possession of tobacco do not accumulate from one year to the next.

Use and Possession of Alcoholic Beverages and Drugs

Students are expected to refrain from the use and/or possession of any beverage containing alcohol, as well as any substance (marijuana, cocaine, anabolic steroids, and other drugs) defined by the law as an illegal drug, unless specifically prescribed for the student’s own use by his/her physician. Violations include the following:

1. Alcohol, intoxicating liquor as defined in Chapter 311, RSMo, or alcoholic beverages
2. Controlled substances, counterfeit substances or imitation drugs as defined in Chapter 195, RSMo.
3. Solvent, or toluol, as defined in Chapter 578 RSMo.
4. Controlled substance analogue as defined by Chapter 195 RSMo, and any substance which has a chemical makeup similar to any controlled substance, as defined above, and which when ingested or otherwise used causes a condition such as intoxication, euphoria, dizziness, irrational behavior, stupefaction or hallucination.
5. Anabolic steroid or other similar compound that is derived from testosterone or prepared synthetically.
6. Drug paraphernalia as defined by Chapter 195, RSMo.
7. Prescription medications that are not prescribed to the student.
8. Prescription medications that are prescribed to the student (If the student sells or distributes the medication to others).

Consequences:

First Offense-On a student's first violation, he/she shall be suspended for one half of the activity season. The student will be removed from any office he/she holds in any club or activity.

The length of this suspension may be reduced to one-third of the activity season if the student voluntarily seeks a minimum of (5) hours of counseling that specifically addresses alcohol and/or drug abuse. Parents of the student would be responsible for the costs of this counseling, as well as providing documentation to the building principal concerning successful completion of the required hours of counseling.

Second Offense-On a student's second violation, he/she shall be suspended from all activities for 365 days.

The length of this suspension may be reduced to 180 days if the student voluntarily seeks a minimum of fifteen (15) hours of counseling that specifically addresses alcohol and/or drug abuse. Parents of the student would be responsible for the costs of this counseling, as well as providing documentation to the building principal concerning successful completion of the required hours of counseling.

Third Offense-On a player's third violation, he/she shall be permanently suspended from co-curricular/extracurricular activities.

In keeping with our philosophy of encouraging honesty and proper values, students who are arrested or charged with violations of criminal law must inform the coach, athletic director, or the building principal within seven days of being arrested or charged with the criminal act. Failure to do so will result in suspension for an entire activity season.

IF LAW ENFORCEMENT PERSONNEL OR SCHOOL FACULTY MEMBERS WITNESS ANY OF THE ABOVE INFRACTIONS OF THE CASSVILLE HIGH SCHOOL CITIZENSHIP POLICY, THE ADMINISTRATION WILL BE OBLIGATED TO EXAMINE AND INVESTIGATE THE ALLEGATIONS.

Penalties and violations for all citizenship violations (excluding tobacco violations) shall accumulate beginning in the 9th grade and will carry over through the 12th grade.

All suspensions occurring at the end of activity seasons will carry over to the next activity season. Involvement in more than one program during the punishment period will result in suspension from each activity.

Suspensions for students in the 10th-12th grades will only be applied to activities the student has previously participated in at the HS level. (For example: Students would not be able to serve a suspension in a sport/activity they had not previously participated in to avoid being suspended from another sport/activity). 9th grade students would serve their suspensions in the next sport that they participate in at the HS level.

CASSVILLE R-IV SCHOOL DISTRICT STUDENT DRUG TESTING POLICY

The board recognizes the importance of protecting the health and safety of students from the impact of using illegal drugs, performance-enhancing drugs, and alcohol. The purpose of this policy is to help prevent student substance use, encourage treatment for students who use substances, and ensure that students can attend school and participate in activities in a safe and healthy environment.

The board directs the superintendent or designee to create appropriate administrative procedures to implement this policy.

Reasonable Suspicion Drug and Alcohol Testing

A drug or alcohol test is not necessary to discipline a student when there is evidence that the student is under the influence of or has recently consumed alcohol or any drug prohibited by district policy. In accordance with law, district administrators may, at their discretion, utilize drug and alcohol testing to assist with student discipline when there is reasonable suspicion that a student has consumed drugs or alcohol and is on district property or at a district activity.

Students who test positive will be disciplined and excluded from extracurricular activities in accordance with the district's discipline policy and may also be excluded from the district's A+ scholarship program. Students who refuse to submit to testing or take measures to falsify results may still be disciplined under the district's discipline code for being under the influence of alcohol or drugs.

The board encourages the superintendent or designee to consider alternative discipline for students who are willing to seek treatment or counseling options.

Marijuana and Reasonable Suspicion Testing

Students suspected of being under the influence who test positive for marijuana may be removed from school or activities and may be appropriately disciplined even if they have a valid, Missouri-issued medical marijuana card.

Random Drug and Alcohol Testing of Extracurricular Participants

Participation in extracurricular activities is a privilege and carries with it the responsibility to adhere to high standards of conduct, including refraining from the use of illegal drugs, performance-enhancing drugs, and alcohol. To assist students in making healthy and safe choices, the district will require students in grades nine through twelve and their parents/guardians to consent to random testing for alcohol and illegal or performance-enhancing drugs as a condition of participation in covered extracurricular activities.

Definitions

The terms are defined for purposes of this policy:

Competitive Activities – means any school-sponsored extracurricular activity in which a student represents the district, in the opinion of the district's administration. Competitive activities include all Missouri State High School Activities Association (MSHSAA) regulated activities and events such as athletics, band, choir, speech and debate, cheerleading, and academic competition.

Competitive Activity Season – means the period of time specified by the MSHSAA, the district, or some other governing body, as the time during which the competitive activities may be conducted. This time period shall be further defined to begin with the first scheduled competition and end with the last scheduled competition and shall not include training time which is allowed prior to the first competition.

Consent Form – means the parent/guardian drug testing consent form which is adopted by the district's administration.

Contests – means the scheduled games, matches or contests (including district, sectional and state contests) for any competitive activity.

Controlled Substance – means any substance listed in § 195.010, RSMo. and Schedules I through V of Chapter 195, RSMo. Examples of such substances include, but are not limited to, marijuana, hashish, cocaine, crack, amphetamines, methamphetamine, barbiturates, opium and heroin.

Deadline Date – means the third Friday following the first day of classes in the district each school year or by the date of the first contest in any activity which the participant participates, whichever comes first.

Drug – means any controlled substance or other drug which requires a prescription which the participant does not possess.

Drug Test – means a validated method to test for the presence of controlled substances and drugs in a person's urine.

Participant – means any student in grades seven through 12 who participates (or desires to participate) in competitive activities and/or signs up for such activities. This also includes students who drive to school and park a motor vehicle on campus.

Participation Days – Each day that the extracurricular group meets, regardless of whether that meeting is a practice, a group meeting, or an event.

Procedures for Testing

Consent Forms

In order to participate in competitive activities and/or drive to school and park a motor vehicle on campus, a participant must provide the district with a signed consent form. The consent form will be distributed at the beginning of the school year and must be signed and returned no later than the deadline date, regardless of when the student will participate in the competitive activities.

The consent form will be provided to students who enroll after the first of the school year. Students must submit the signed consent form within two weeks following his or her enrollment date. These participants may also be subject to immediate drug testing.

Any student who fails to return a signed consent form by the deadline date will be subject to the following criteria:

The student will be prohibited from participating in any competitive activity during the school year and/or drive to school and park a motor vehicle on campus, or

Should the student choose to sign the consent form after the deadline date, the student would be required to serve a suspension equal to one-third of the competitive activity season.

Random Selection

Each participant who has returned a signed consent form will be assigned a random number for testing purposes. The participant's drug test number will be used by the laboratory which conducts the drug tests to refer to the participant. In order to assure privacy, the name of any student who is tested shall be known to district administrators only on a need to know basis.

The selection procedure shall be performed by the laboratory testing personnel who are used by the district. Selection of the participants for each drug test shall be accomplished by random sample of all participants. The selection process will follow scientifically accepted random sampling techniques.

Each quarter during the school year approximately ten per cent (10%) of the participants will be selected to take the drug test.

Drug Test and Test Result Reporting

- A. Participants who are selected by random sampling will be asked to provide a urine specimen.
- B. In order to assure privacy, the specimen shall be collected in a private restroom facility behind a closed stall. The process will be supervised by trained personnel who will remain outside the stall.
- C. The specimen will be observed for normal characteristics to ensure the validity of the test.
- D. A routine chain-of-custody protocol will be observed with respect to the specimen.
- E. A screening test will be performed on the specimen by trained laboratory personnel. If the screening test is positive, it will be considered a non-negative test result. Every effort will be made to ensure that no person, other than appropriate district administrators or personnel, knows the identity of any participant who produces a non-negative specimen. A confirmation test will be run on all non-negative specimens. If the confirmation test is positive, the designated laboratory personnel will notify the designated district administrators that a positive result was obtained.
- F. The designated district administrator will contact the parent/guardian of any participant who has a positive test result. If the student/parents/guardians assert that the positive test was caused by something other than the consumption of an illegal substance, the student/parents/guardians will have 72 hours to produce evidence to the medical review officer. This evidence should include a list of all substances, along with the appropriate prescriptions that the student may have taken prior to testing.
- G. The district will rely on the opinion of the laboratory's medical review officer with respect to the validity of the specimen, the cooperativeness of the participant during the testing procedure, the results of the drug test and any additional information provided by participant/parent/guardian.

Consequences for Testing Positive in Random Drug Testing Program

In accordance with law, the only consequence for a student testing positive in the district's random testing program is exclusion from the extracurricular activity.

The superintendent or designee will immediately suspend students with a confirmed positive test for drugs or alcohol from all covered activities. Offenses accumulate throughout grades nine through twelve. Depending on the timing of the positive test result, the student may be excluded from participation in activities at the end of the school year, over the summer, and/or into the beginning of the next school year.

First Offense— Exclusion from all covered activities for a minimum of 30 participation days and must pass a district-administered drug test prior to participating in covered activities again.

Second Offense— Exclusion from all covered activities for a minimum of 90 participation days and must pass a district-administered drug test prior to participating in covered activities again.

Third Offense— Excluded from all covered activities for the rest of the student's enrollment in the district.

Consequences may be imposed if a student refuses to submit to a test or takes measures to falsify results. Consequences may be reduced if the student participates in drug or alcohol counseling and additional testing or if the student self-reports a violation.

Marijuana and Random Testing

Students are prohibited from being under the influence of marijuana while participating in the district's extracurricular activities program, even if the student has a valid, Missouri-issued medical marijuana card. Students who test positive for marijuana will be subject to the consequences listed in this policy.

Appeals Procedure

If a participant receives a suspension from competitive activities pursuant to this policy, the participant may appeal the decision in writing to the superintendent and the board of education. The participant's written appeal shall be reviewed, and a decision shall be rendered within five working days following the date the written appeal was received by the superintendent.

CHS Dual Sports Participation Consent Form

{This form only needs to be filled out if your student participates in two sports within the same season **}**

(Reference: Page 4 of the handbook- Guidelines for Dual Sport Participation)

I would like to participate in two sports **during the same season**. I must designate a priority sport to take precedence over the other if a scheduling conflict arises. I have read my extra-curricular handbook and agree to follow all of the guidelines listed regarding dual sports participation. I am aware that I must maintain a 2.67 GPA on a 4.00 scale in order to participate in dual-sports.

2024-2025

CASSVILLE R-IV SCHOOL DISTRICT EXTRACURRICULAR ACTIVITY RANDOM DRUG TESTING CONSENT FORM

The Cassville R-IV School District recognizes the importance of a drug free life; therefore, the District has adopted an Extracurricular Random Drug Testing Policy. *In order to participate in competitive activities and/or drive to school and park a motor vehicle on campus, a participant must provide the district with this signed consent form.*

We have read and understand the Cassville R-IV School District's Extracurricular Random Drug Testing Policy. We understand the purpose behind this policy, and we agree to abide by the procedures and consequences of the policy. We authorize the release of information from the drug testing laboratory to the Cassville R-IV School District. By signing below on the lines provided, we agree to all of the policy information stated above.

PARENT PERMISSION AND AUTHORIZATION FOR TREATMENT & AGREEMENT WITH HANDBOOK POLICIES

I give my consent for this student to represent Cassville High School on activity trips without holding Cassville R-IV Schools or trip sponsors responsible in case of accident or injury. I give permission for accompanying sponsors to provide or cause to be provided any emergency medical attention as deemed necessary. I understand that I will be notified in the event of any emergency situation as quickly as possible.

This permission and authorization is valid for the period of July 1, 2024 through August 31, 2025. In addition, we understand that by signing this form we are agreeing to abide by the policies set forth in this manual and we will also abide by the Big 8 Conference standards as well.

THE EXTRACURRICULAR HANDBOOK CAN BE VIEWED ON THE HIGH SCHOOLS PAGE AT WWW.CASSVILLE.K12.MO.US OR YOU MAY REQUEST A PAPER COPY FROM THE HIGH SCHOOL OFFICE.
